PROFESSIONAL EXPERIENCE

MYSTIK SCIENCE

Remote

Full Stack Developer

Aug 2026 – Present

- **Built** real-time AI voice-agent workflows with **Python**, **LiveKit**, and LLM APIs, adding multi-turn state management, interruption handling, recovery logic, and guardrails.
- **Extended** session architecture with **Prisma**-backed persistence across a **Next.js**, **TypeScript**, and Python monorepo, preserving conversation state across real-time interactions.
- Evaluated **5+** **voice AI platforms** and stabilized developer workflows by resolving **2 Prisma/ESLint issues**.

DARWINBOX

Hyderabad, India

Software Development Engineer

Jul 2022 – Jul 2023

- **Launched** the Employee Journeys microservice with **Java Spring Boot**, **React**, and REST APIs, supporting **600+** **global clients** and contributing **\$90K+ in revenue**.
- **Cut** Taskbox filtering latency from **10s to 3s** by replacing single-field MongoDB indexes with compound indexes tuned for production queries.
- **Refactored** notification processing into an asynchronous **RabbitMQ/cron** architecture, delivering **10K+ daily alerts** with **99% success** and zero message loss.
- **Constructed Node.js** ETL pipelines from MongoDB to **AWS Redshift**, reducing analytics report generation from **15 minutes to 5 minutes**.

BLUEJEANS BY VERIZON

Remote

Frontend Intern

Jul 2021 – Dec 2021

- **Raised** Jest/React test coverage to **65%** across critical Web Meeting Client workflows by implementing white-box tests and identifying **20+ coverage gaps**.

BHEL

Visakhapatnam, India

Web Development Intern

May 2020 – Jun 2020

- **Delivered** an intranet tender-management application with **HTML**, **CSS**, **JavaScript**, **PHP**, and **SQL**, enabling digital submission, archival, filtering, search, and record retrieval.

PROJECT EXPERIENCE

TravelMate: AI-Assisted Travel Planning Platform | *FastAPI, Gemini, Next.js, Google Maps APIs, ElevenLabs*

- **Engineered** an AI travel-planning platform that reduced planning time by **50%** through Gemini extraction/validation, FastAPI orchestration, and Google Places/Routes integration.
- **Optimized** LLM workflows by **30%** and built an ElevenLabs voice agent that increased user engagement by **15%** across voice-first trip planning.

Fashion AI: Multimodal Wardrobe and Styling Platform | *Gemini, Node.js, DynamoDB, S3, AWS CDK*

- **Created** a multimodal AI wardrobe platform with Gemini-powered garment analysis, styling recommendations, image generation, conversational workflows, and virtual try-on.
- **Architected** a secure multi-tenant AWS backend with Cognito, DynamoDB, S3, JWT authorization, and CDK-based containerized deployment.

Accio: PDF/OCR Processing for Workflow Digitization | *Python, Neo4j, RAG, OCR*

- **Devised** OCR, semantic-chunking, and LLM triplet-extraction pipelines for Neo4j GraphRAG, achieving **77.5% entity accuracy** and **0.76–0.82 NDCG@5**.
